

Dentistry Continuing Education for Veterinarians and Technicians

Date: Saturday April 27, 2019

Location: SPCA of New Orleans

Time: 8am – 5pm

Course Description

The course will cover proper dental cleaning, oral pathology, instrumentation used in dental cleaning, dental radiology, interpretation of dental radiographs, digital dental radiography systems, utilization of digital dental systems, promoting client acceptance of treatment plans, dental charting, and the implementation of a higher level of dental care in general practice.

The CE covers the skills and information needed by all doctors and technicians to enable delivery of quality dental care. In order to perform a higher level of dental care, training for both doctors and technical staff is required.

The wet lab portion will cover obtaining diagnostic quality radiographs utilizing canine and feline cadaver specimens, sharpening of hand instruments, probing and charting, proper equipment usage
